

Aurora Health Care has had an ongoing partnership with Select Milwaukee for over 15 years. During that time, we have experienced steady growth in the number of our employees that have realized the pride of homeownership, many of them for the first time. The success of our Employer Assisted Homeownership Program is directly related to the professionals at Select Milwaukee.

Select Milwaukee is committed to providing the highest quality service to each of our employees with whom they have occasion to work, and diligently outline the steps necessary to assess a family's readiness to purchase a home. Often this has involved determining their ability to secure a home loan, along with making them aware of the ongoing costs associated with homeownership.

The Aurora Employer Assisted Homeownership Program, through our strong partnership with Select Milwaukee, has been one of our most successful employee benefits.
